Here are the costs that we have confirmed:

Report Printing expense: \$6,716.46

Travel to Knoxville for Research: \$802.43

The number of work hours associated with this report is more difficult for us to ascertain. This report was one of approximately 19 reports that has been researched by our Office of Research and Education Accountability (OREA) over the past year. OREA has a dedicated staff of 11 people that work full-time on these reports. It is impossible for us to track the number of hours dedicated to this project.

Subject: Cost of sex week study?

John,

Did you ever get back to Sen. Dickerson on what it cost to put together the 269-page Sex Week study?

Thanks,

Erik
